

COMMUTATIVE PROPERTY - B

ANSWERS

ORDER DOES NOT MATTER

HELPFUL EXAMPLE

$$4 + 12 + 26 + 9 + 7 + 11 + 8 + 3 = 4 + 26 + 12 + 8 + 9 + 11 + 7 + 3$$

COMBINE NUMBERS TO MAKE THE ADDING PROCESS EASIER.

$$\begin{array}{ccccccc} \vee & & \vee & & \vee & & \vee \\ 30 & + & 20 & + & 20 & + & 10 = \underline{80} \end{array}$$

USE THE COMMUTATIVE PROPERTY TO HELP YOU ADD.

1. $3 + 5 + 8 + 11 + 17 + 5 + 12 + 9 = \underline{70}$

2. $16 + 13 + 10 + 14 + 8 + 2 + 7 + 10 = \underline{80}$

3. $24 + 19 + 15 + 20 + 15 + 10 + 1 + 6 = \underline{110}$

4. $8 + 13 + 24 + 12 + 5 + 27 + 16 + 15 = \underline{120}$

5. $2 + 13 + 13 + 2 + 20 + 6 + 13 + 11 = \underline{80}$

6. $21 + 5 + 14 + 21 + 19 + 25 + 16 + 9 = \underline{130}$

7. $11 + 3 + 11 + 7 + 3 + 11 + 21 + 3 = \underline{70}$

8. $15 + 10 + 6 + 18 + 15 + 14 + 12 + 10 = \underline{100}$

9. $25 + 8 + 23 + 1 + 22 + 11 + 10 + 20 = \underline{120}$

10. $13 + 14 + 12 + 21 + 17 + 28 + 16 + 19 = \underline{140}$

11. $10 + 16 + 15 + 18 + 15 + 30 + 22 + 24 = \underline{150}$

12. $2 + 25 + 22 + 2 + 25 + 12 + 10 + 2 = \underline{100}$

13. $19 + 16 + 22 + 31 + 18 + 14 + 27 + 23 = \underline{170}$

14. $15 + 6 + 21 + 11 + 22 + 13 + 21 + 21 = \underline{130}$
